FREQUENTLY ASKED QUESTIONS (FAQs)

1. How do I reach IIT Dharwad?

IIT Dharwad's campus is located at Chikkamalligawad, Dharwad – 580 011, Karnataka, close to the Pune–Bengaluru National Highway (NH-4), about 12–15 km from Dharwad city and roughly 15 km from Dharwad railway station. Hubballi (Hubli) — about 35 km away — is the nearest major railway junction, with frequent trains and buses to Bengaluru, Mumbai, Pune, Hyderabad and other cities. The nearest airport is Hubballi (about 30 minutes), followed by Belagavi/Belgaum (about 50 minutes); Goa airport is around 160 km away. For detailed directions, please visit www.iitdh.ac.in/contact-us.

2. Whom should I contact for admission-related queries?

For any undergraduate admission-related queries, write to us at b.tech.admissions@iitdh.ac.in. For postgraduate admission queries (M.Tech, M.Tech by Research, M.Sc. and Ph.D.), please write to pgadmissions@iitdh.ac.in.

3. Where can I find faculty recruitment openings at IIT Dharwad?

IIT Dharwad invites applications from well-qualified candidates for faculty positions at Assistant Professor, Associate Professor and Professor levels across all departments under a rolling (open) recruitment drive. Current openings and the application forms are available at www.iitdh.ac.in/faculty-recruitment.

4. Where can I find staff recruitment openings at IIT Dharwad?

Non-academic and staff vacancies, along with notifications, shortlists and results, are published at www.iitdh.ac.in/staff-recruitments and under Recruitment → Announcements at www.iitdh.ac.in/announcement.

5. What are the programmes of study at IIT Dharwad?

IIT Dharwad, established in 2016 and mentored in its early years by IIT Bombay, offers programmes at the undergraduate, postgraduate and doctoral levels:

B.TECH (Undergraduate)
BS-MS (Undergraduate)
M.Sc. (Postgraduate)
M.TECH. (Postgraduate)
EXECUTIVE MTECH (Postgraduate)
M.Tech. by Research (Postgraduate)
PhD (Postgraduate)

Detailed curricula are available at www.iitdh.ac.in/curriculum.

6. How do I apply for admission at IIT Dharwad?

Admissions are based on national-level entrance examinations followed by the respective counselling/selection process:

- **B.Tech. and BS–MS:** qualify in JEE (Advanced) and apply through JoSAA (Joint Seat Allocation Authority) counselling.
- **M.Sc. (2-year):** admission through IIT JAM (Joint Admission Test for M.Sc.).
- **M.Tech.:** on the basis of a valid GATE score, through COAP (Common Offer Acceptance Portal).
- **M.Tech. by Research and Ph.D.:** shortlisting based on the qualifying examination (GATE / UGC–CSIR NET / JRF, etc.), followed by a written test and/or interview, which may vary by department.

7. What facilities are available to students?

The campus offers modern, network-connected classrooms (with audio-visual and active-learning systems), an auditorium, seminar rooms, a central library, a computer centre and well-equipped laboratories, with Wi-Fi available throughout. On-campus hostels (Hostel-1 and Hostel-2) provide furnished rooms, dining halls, internet and recreational facilities, complemented by sports facilities. The 470-acre permanent campus is built as a "Sustainable Green Campus" and holds a 5-star GRIHA rating. Medical support includes a round-the-clock ambulance with an "ICU on wheels" facility, qualified paramedic staff, and doctors who visit the campus regularly and are available on call.

8. How does IIT Dharwad support students from financially weaker backgrounds?

IIT Dharwad believes that financial constraints should never become an obstacle to a student's academic pursuit. In line with practice across the IITs, the institute provides need- and merit-based assistance — typically including Merit-cum-Means (MCM) scholarships, tuition-fee remission and mess/other concessions for eligible SC/ST/PwD and economically weaker students, along with various institute, government and donor scholarships and freeships. Students may approach the Academic / Students' Welfare office for current eligibility criteria and details.

9. What is the climate like in Dharwad?

Dharwad has a moderate tropical-savanna climate and, helped by its elevation of around 640 m, is generally considered pleasant compared with coastal Karnataka. Summers (March–May) are the warmest, with April daytime temperatures around 35 °C and occasional higher spells. The southwest monsoon arrives in June and continues through September, with July and August the wettest months; annual rainfall is roughly 750–860 mm. Winters (December–February) are mild and pleasant, with cool nights of around 15 °C.

10. How safe is the IIT Dharwad campus?

Round-the-clock security personnel monitor the hostels and academic areas, supported by campus access control. Emergency medical assistance, including an on-call ambulance service with paramedic support, is available to students, faculty and staff.

11. How is the food at IIT Dharwad?

IIT Dharwad maintains high standards for the quality, cleanliness and hygiene of food served in its hostel dining halls. Menus are planned for a balanced, nutritious diet, and the institute uses a "SmartMess" system for transparent mess management. Additional cafeteria and eating options are also available on campus.
